

IPSWICH WATER DEPARTMENT

DROUGHT UPDATE

September 26, 2016

Drought Status: **DROUGHT EMERGENCY**

No outdoor watering

Limit all non-essential indoor water use - Use water more wisely!

Current Activities:

- The Water Department has received a declaration of water supply emergency from MassDEP. The declaration allows the Town to pump its wells in the Ipswich River Watershed beyond registered limits. This provides flexibility to manage our sources in the most effective manner. We have temporarily suspended our proposal to utilize recently installed test wells on the former Lynch property as we evaluate water quality results. **To comply with the emergency declaration, Ipswich must continue the ban on all outdoor water use, as well as continue to urge all private well users to restrict their outdoor water use.**
- **Discounted rain barrels are now available to Ipswich residents at Corliss Bros. for \$45!**

<p>It is imperative that water demand drop to winter levels immediately in order to ensure the Water Department can continue to meet basic domestic and firefighting needs.</p>
--

REMINDER: Commercial customers are not exempt from drought requirements. Only those water use activities that are essential to conduct business are allowed.

Reservoir Capacity, Total:	91,400,000 million gallons
Usable Storage as of 8/5/16:	20,300,000 million gallons
Usable Storage as of 8/12/16:	20,700,000 million gallons
Usable Storage as of 8/19/16:	17,800,000 million gallons
Usable Storage as of 8/26/16:	16,000,000 million gallons
Usable Storage as of 9/02/16:	14,000,000 million gallons
Usable Storage as of 9/09/16:	12,900,000 million gallons
Usable Storage as of 9/16/16:	11,500,000 million gallons
Usable Storage as of 9/23/16:	12,300,000 million gallons

Where did last week's water come from? 40% Reservoir Water
60% Well Water

DROUGHT UPDATE

September 26, 2016

WARNING

Should demand remain high, use of Browns and Fellows Road Wells will increase. These wells meet all primary drinking water standards, however, they do have elevated levels of Manganese. With elevated Manganese levels, parents are advised to use bottled or treated water for their young children, in particular to make formula.

Winter Average Daily Demand:	0.8 million gallons per day (mgd)
Last Week's Average Daily Demand:	0.9 million gallons per day (mgd)
Current Average Daily Demand:	0.9 million gallons per day (mgd)

Days of Supply Remaining at current demand of 0.9 mgd: 25 - 50 days

Reducing use to winter average extends our supply by 15 days per month

2014 Total Precipitation Jan 1 - Aug 1:	29.36 inches
2015 Total Precipitation Jan 1 - Aug 1:	32.13 inches
2016 Total Precipitation Jan 1 - Aug 1:	18.24 inches
Total Precipitation Aug 1 - Aug 8:	0.20 inches
Total Precipitation Aug 9 - Aug 14:	1.05 inches
Total Precipitation Aug 15 - Aug 21:	0.90 inches
Total Precipitation Aug 22 - Aug 28:	0.00 inches
Total Precipitation Aug 29 - Sept 4:	0.00 inches
Total Precipitation Sept 5 - Sept 11:	0.54 inches
Total Precipitation Sept 12 - Sept 18:	0.30 inches
Total Precipitation Sept 19 - Sept 25:	0.20 inches

What is the Water Department doing?

- Asking the community to share their water saving tips! Visit www.ipswichma.gov and click "Community Voice" to share suggestions.
- Increasing enforcement of the water ban. One warning is issued, a subsequent violation results in shut-off of water service
- Increasing use of well water
- Additional long term alternatives are being considered to augment our current sources
- The Water Department received permission to breach a beaver dam and conduct trapping in an area along Bull Brook (see 9/6/16 update). We have breached the dam and completed installation of a pond leveling device to ensure water flows uninterrupted to Bull Brook Reservoir.

IPSWICH WATER DEPARTMENT

DROUGHT UPDATE

September 26, 2016

- On September 13th, the Water Department hosted a meeting with local town and state officials to discuss current drought conditions impacting the region. Those in attendance included Secretary Matthew Beaton (EOEEA), Bethany Card (DEP), Representative Brad Hill, Senator Bruce Tarr and several others.

Start Saving Water Indoors!

Daily percent of indoor water use, per person,
(sample: approx. 700 homes, nationwide)

Fix a Leak: Small household leaks can add up to gallons of water lost every day.

Try the drip calculator to see how much water is being wasted:

<http://www.awwa.org/resources-tools/public-affairs/public-information/dripcalculator.aspx>

IPSWICH WATER DEPARTMENT DROUGHT UPDATE

September 26, 2016

In the bathroom: Over half of all water use inside a home takes place here:

Turn off the tap while shaving or brushing teeth.

Showers use less water than baths, as long as you keep an eye on how long you've been lathering up!

In the kitchen: Big water savings to be achieved if you:

Plug up the sink or use a wash basin if washing dishes by hand.

Use a dishwasher; and when you do, make sure it's fully loaded!

While you're at it, scrape that plate instead of rinsing before loading it into the dishwasher.

Keep a pitcher of drinking water in the refrigerator instead of letting the faucet run until the water is cool.

Thaw in the refrigerator overnight rather than using a running tap of hot water.

Add food wastes to your compost pile instead of using the garbage disposal.

In the laundry room: You can be clean AND green:

Wash only full loads of laundry or use the appropriate water level or load size selection on the washing machine.

DROUGHT UPDATE

September 26, 2016

Rain Barrel Sale!

Big discount!

\$45*

These barrels are

- 100% recycled
- Equipped with screw lid and spigot
- Made from certified food grade plastic
- Terra-cotta color
- Great size:
 - 50 gallon capacity
 - 36 inch height
 - 23 inch diameter
- Perfect for:
 - Car washing
 - Gardening
 - Irrigation

- Save money
- Conserve water
- Ease the drought

*Limited to one per customer

*Available while supplies last; only at Corliss Bros.

*Offer valid for Ipswich residents only (proof of residency is required)

Corliss Bros. Fall Hours

Sunday 9:30am—4:00pm

Monday through Saturday, 8:30am—5:00pm
